4. SALIENT FEATURES OF THE SCHEME :

This Composite Scheme of Compromise and Arrangement envisages the Compromise and Arrangement between Arun Kumar Jagatramka, Promoter Shareholder/Member of the Company and the Creditors and Shareholders of the Company pursuant to Sections 230 to 232 and other applicable provisions, if any of the Companies Act, 2013.

(a) Rationale for the Scheme :

The rationale or the Benefits of the Scheme to the Company, Shareholders, Creditors of the Company and Others:

- i. Secured Creditors:
- NPV of aggregate bank repayments under the Scheme would be greater than the expected recovery under Liquidation
 - Lenders holding more than 33% shareholding in equity capital to benefit in case of revival of

- the Company which would otherwise be nil in case of liquidation
- iii) Certainty and timeline of repayment is defined in the Scheme which is totally uncertain in case of liquidation
- iv) Substantial financial loss to lenders can be avoided as negligible value can be recovered by them when assets are sold as scrap brick by brick under the liquidation process
- v) No additional funding is sought from existing lenders
- vi) No moratorium
- ii. Unsecured Creditors:
- i) The Unsecured Creditors will be able to recover a portion of their dues in terms of the Scheme as compared to the NIL recovery in the event of Liquidation.
- ii) The Unsecured Creditors will be benefited by the equity upside which is expected to increase as the Company revives, generating good return for the unsecured creditors which in the case of liquidation will be zero.
- iii) Resolution of ongoing litigations and awards/orders and claims in terms of the Scheme
- iv) Continued contribution to the government & payment of statutory dues in terms of the Scheme
- v) Continuity of employment & payments to workmen and employees in normal course of the business.
- iii. FCCB holders:
- i) The FCCB holders will be able to recover a portion of their dues in terms of the Scheme as compared to the NIL recovery in the event of Liquidation.
- ii) The FCCB holders will be benefited by the equity upside which is expected to increase as the Company revives, generating good return for the them which in the case of liquidation will be zero.
- iii) If the investment of the FCCB holders, who are mainly foreign investors, is recouped, then their faith and confidence in the Indian market as a preferred investment horizon, will be kept alive.
- iv. Shareholders:
- i) Equity shares continues to be listed and traded and hold market value which otherwise would be lost in case of liquidation.
- ii) More than 2 lac retail shareholders to benefit from revival of business and appreciation of the Company valuation viz-a-viz equity share valuation as against zero value in the case of liquidation.
- iii) Lenders holding more than 33% shares of the Company to benefit in case of revival post implementation of the Scheme as against zero value in the case of liquidation.
- v. Company:
- i) Revival of operations on backing of industry upturn and resolution of the Company specific issues
- ii) Company to continue as going concern. This will help keep ~ 1100 direct employment
- iii) Coke is a war critical commodity. Revival of the operations of the Company will mean India would not lose self reliance on a critical raw material and would not depend on countries like China to dictate supply and price.
- iv) Revival of the Company will increase the economic value of productive plant and machinery and at the same time will generate future employment,
- v) The livelihood of around 10,000 families indirectly associated with the company through its transporters, security agencies, dealers, vendors, etc will be safeguarded,
- vi) The creative value potential of the assets will not be lost,
- vii) The economic value of productive plant and machinery will be safeguarded
- viii) No loss to exchequer in terms of GST, Customs Duty, Income tax, etc.
- (b) **“Appointed Date”** means 7th April, 2017 or such other date as the Hon’ble National Company Law Tribunal, Kolkata Bench may direct.
- (c) **“Effective Date”** shall mean the date on which the certified copies of the order of the Tribunal of Judicature at Kolkata sanctioning the Scheme is filed with the Registrar of Companies, West Bengal. Any references in this Scheme to “upon this Scheme becoming effective” or “effectiveness of this Scheme” shall mean the Effective Date.

3. The history of the company goes back to the year 1986 when the company was incorporated and later listed on the BSE & CSE in 1996. That sometime in 1997, the Company had fallen in huge debt crisis and was in financial stress when the applicant, Mr. Arun Kumar Jagatramka was appointed as

Managing Director of GNCL on 28.3.97; but due to various litigations could take full control of the company w.e.f 4-12-1997. Under the stewardship of the applicant, GNCL has made its presence felt in the coal & coke industry and become India's largest independent manufacture of Met Coke and had also acquired coal mines in Australia. The progress made by the company during the transition phase (i.e from 1998 under the management and control of the applicant) can be understood from the following details:

Particulars	September 1998	September 2004	Improvement
Current Ratio	0.65	1.65	2.54 times
Debt/Equity Ratio	2.61	0.41	6.37 times
Market Capitalization (Rs. Cr.)	5	313	62.60 times

4. Financial snapshot of the company during its transition phase i.e.; between 1998-99 to 2003-04 under the leadership of the petitioner are as under :

Particulars	1998-99	2003-04	Improvement
Net Fixed Assets	27.44	75.10	2.74 times
Turnover	30.04	285.21	9.49 times
Operating Profit	0.54	133.41	247.06 times
Tax	0.06	37.51	625.17 times
Profit after Tax	0.48	90.78	189.12 times
Cash Profit	0.48	106.82	222.54 times
Dividend Payout	0	16.89	16.89 times
Retained Earnings	0.48	87.65	182.60 times
Earning Per Share (Rs)	0.48	26.61	55.44 times

5. Operational snapshot of the company during its transition phase i.e.; between 1998-99 to 2003-04 under the leadership of the petitioner are as under:

Particulars	1998-99	2003-04	Improvement
Production (MT)	62,584	252,343	4.03 times
Installed Capacity (MT)	100,000	502,000	5.02 times

6. The company had invested Rs. 62.48 cr in five years commencing from 1998-99 to 2003-04 in capacity enhancement. In 2003-04, annual production capacity was increased to 3.58 lacs tonnes from 2.44 lacs tonnes at Khambhalia, Gujarat.
7. The company had invested in a new greenfield plant at Bhachau, Gujarat, with a capacity of 3.24 lacs TPA. The plant had commenced operations in a phased manner (1.44 lacs TPA was in operation at the end of 2003-04).
8. A third plant was planned to be set up at Dharwad, Karnataka. This plant had a capacity of 7.24 lacs TPA that is scalable to 10 lac TPA.
9. The company had invested in an Australian coking coal mine, de-risking the company's raw materials cost and availability.

10. The company had invested in a wind turbine generator having a capacity of 1.25 MW for a clean form of renewable energy, saving precious fossil fuel with further investments to follow in the wind turbines generations.
11. The company had also planned to set up power capacities of 50 MW at an estimated investment of Rs. 120-150 cr based on the waste heat co-generation process.
12. The company was the quickest off the block with a pioneering despatch of coke to Brazil in 2004 – the first ever time this was done by any Indian coke producer. The company leveraged its port-based location to report Rs. 33.47 cr of exports to Brazil in 2003-04, being followed by despatches to South Africa. In addition to repeated orders from these countries, the company enjoyed attractive long-term export enquires for coke from USA, Japan and Europe.
13. During the transition phase of the company i.e between 1998-99 to 2003-04 under the leadership of the applicant, the debt profile of the company improved significantly as under:
- Improvement in credit rating by CARE from D to AA- for non-convertible debentures signifying a high asset quality by all standards and a high investment grade.
 - The company's interest liability declined from Rs. 1.65 cr to Rs. 1.59 cr and the average debt cost declined from 17.10 per cent in 2002-03 to 5.37 per cent in 2003-04 and the debt-equity ratio reduced from 1.32 in 1998-99 to 0.41 in 2003-04. The company financed its aggressive expansion through a mix of retained profits and low cost debt.
 - Loans declined from 131 per cent of the total capital employed in 1998-99 to only 27 per cent as on 30 September, 2004 as a result of the following virtuous cycle: quality product manufacture, improved realisations, cost cutting, increased profitability, enhanced plough back and debt neutralization.
 - Improved cash flow management, which reduced the utilisation of cash credit facilities from Rs. 1.12 cr in 2002-03 to Rs. 0.46 cr as at the end of 2003-04.
14. The applicant has always considered the interest of the shareholders as primary and of utmost importance for the growth of the company and has at all occasions rewarded them with multiple dividends & bonuses. As such during the transition phase of the company under the leadership of the applicant the shareholders of the company has been rewarded as under:
- The company has paid multiple dividends between 2000-01 and 2010-11. The company has paid dividend as high as 45% and 50% in a year in past during 2003-04 & 2004-06.
 - The company has rewarded its shareholders with multiple bonuses.
 - Total Shareholder Return (TSR) increased from Rs. 15.03 crores in the year 2001-02 to Rs. 331.06 crores in the year 2003-04.
 - The Year-on-year the market capitalisation of the company had increased by 571.16 per cent in the year 2003-04.
 - An investor who had invested Rs. 1 lacs in the equity shares of the company as on 03.04.2000 had a value of Rs. 1.90 crores as on 31.03.2010 which is an increase of more than 190 times in the value of his investments.
15. While the industry was in boom in the year 2008, the global financial crisis in the very beginning of 2009 caused it to crash down. As a result, even though the company had made huge investments in coking coal mines in Australia through its subsidiaries, the company was unable to raise independent capital for the continuous investments required in coal mines in Australia because of commodity downturn ever since at the end of 2008. In the absence of proper and timely capital raising in Australia, being a holding company, the company had to support its subsidiaries and while extending that support the debt of the company became overstretched.
16. In India, the industry suffered due to various external factors primarily on account of lower demand from steel industries caused due to the iron ore ban and dumping of steel. The industry suffered severely from 2012-13 to 2015-16 due to excessive dumping of met coke from China. Indian met coke import had gone up significantly from 2012 till November 2016 due to major dumping / import of met coke from China and prices tumbled to new lows. The price of met coke crashed to such low levels that there was little difference between prices of met coke and that of coking coal, which is the principal raw material used in production of met coke. This resulted in lack of demand as well as squeezing of margins on met coke produced by the company thereby causing huge losses.
17. As a result, the Company had to approach lenders for restructuring of its debts under a Corporate Debt Restructuring (hereinafter referred to as 'CDR') package. The Company went through the CDR process in 2013-14 and the 2 years moratorium expired in August 2015. However, due to the continued downturn in the industrial scenario and the huge dumping of met coke from China till the end of 2016 caused the company to bleed and the company's operations could not revive within the CDR prescribed time frame. The additional interest burden as well as quantum shift in coal and coke prices and reduced projected margins made a large portion of the total debt unviable from the view of immediate serviceability. As a result, the accounts of the Company turned into Non Performing Assets ('NPA') in the books of the lenders.
18. With the CDR failing, the Company had submitted a Debt Realignment Scheme to the lenders in February, 2016 which was under consideration of the bankers. The bankers had got independent valuation done of all the fixed assets of the Company and a Techno Economic Viability (TEV) study was also conducted by independent consultants namely Mott McDonalds at the insistence of the lenders and the said TEV Report was also accepted by the Lenders. However, no conclusion was arrived at by the lenders.
19. The Company had also been facing threats of few winding up notices as well as various other legal matters mainly from foreign shipping lines.
20. In the meantime, the Insolvency and Bankruptcy Code, 2016 (hereinafter referred to as 'the Code' or 'IBC') received Presidential assent on 28.05.2016. In order to revive the company and protect the interests of all the stakeholders, including the creditors and the employees whose livelihood was dependent on the functioning of the Company, the Board of Directors passed a resolution on 21.03.2017 to initiate the Corporate Insolvency Resolution Process (hereinafter referred to as 'CIRP') under the Code.

21. The Company, as a corporate debtor filed the application under Section 10 of the Insolvency and Bankruptcy Code, 2016 for initiating Corporate Insolvency Resolution Process ("CIRP") on 23.03.2017 before the National Company Law Tribunal, Kolkata Bench (hereinafter referred to as "the NCLT") and same was admitted on 07.04.2017. Mr. Sumit Binani was appointed as the Interim Resolution Professional ("IRP") and he was later confirmed and appointed as Resolution Professional ("RP") by the Committee of Creditors (COC).
22. The COC had also confirmed the appointment of Pricewaterhouse Coopers (PWC) to assist the company in preparation of the Resolution Plan on behalf of the company.
23. On 23rd June, 2017, in terms of section 25(2)(h) of the IBC a notice was published in the leading national daily inviting Expression of Interest from third parties for submission of the Resolution Plan for the corporate debtor with a cut-of date of 10th July 2017 for obtaining necessary details and Information Memorandum from the Resolution Professional. However, Mr. Binani, the Resolution Professional, did not receive any bid or enquiry from anyone.
24. Meanwhile, the RP convened several meetings of the COC and viable options for revival of the company were discussed among the COC members. Based on such discussions & confirmation of the COC, a resolution plan was submitted by the promoter i.e the applicant in August 2017 on behalf of the company and the same was under consideration and final stage of approval.
25. While various revival options were being discussed, being a time bound process, the CoC thought it prudent to extend the period of CIRP by 90 days as permitted under the Code. The said application was finally approved by CoC and granted by the NCLT vide its Order dated 19th September, 2017. As such, the CIRP period was extended till 1st January, 2018.
26. However, the President of India on 23.11.2017 promulgated the Insolvency and Bankruptcy Code (Amendment) Ordinance 2017 which debarred the Promoters of the Company from submitting a Resolution Plan. Hence, the plan submitted by the applicant became void and infructuous.
27. Unfortunately, since more than 8 months had already elapsed with no final resolution owing to the Ordinance, confiding on the future viability of the company and its performance the COC members invited interest from third parties to arrive at a viable resolution. However, owing to paucity of time with less than a month left for the expiry of the CIRP process, no resolution could be arrived at.
28. However, a Resolution Plan was submitted by Rare Asset Reconstruction Private Limited on 25.12.2017 which was deliberated upon by the COC on 26.12.2017 and 28.12.2017 but finally was not accepted.
29. Subsequently, the employees and workmen of the Company submitted a comprehensive Resolution Plan to the Resolution Professional on 30.12.2017 which again could not be deliberated upon & considered due to paucity of time under the CIRP which ultimately expired on 01.01.2018.
30. It is pertinent to mention that during the CIRP process, the Company has been operating as a going concern and has also made operational profits in the month of October and November 2017.
31. However, since no resolution plan could be approved by the Committee of Creditors within the permitted CIRP timeline, the Hon'ble NCLT ordered for Liquidation of the otherwise profitable and operational Company w.e.f 11.01.2018 vide its Order dated 11.01.2018. In the present case, liquidation order was outcome of legal compulsion under IBC being a timebound process & a result of the ordinance leading to no resolution for the revival of the company.
32. As a result of the ordinance:
- The promoter of the company became ineligible to revive a viable company.
 - The resolution plan for revival of the company which was under consideration of the COC could not be approved.
 - The valuable working and the time invested by the COC members of 8 months in a restrictive period of 9 months to draw a viable & acceptable resolution plan for revival of the company vis-à-vis recovery of their debts became futile & invalid.
 - CoC was left with no alternate option for revival of the Company, since no Expression of Interest (Eoi) was received from third parties during CIRP period prior to implementation of the Ordinance.
- Hence the company was compulsorily put to liquidation under the process of law.
33. Whereas liquidation of the Company would have the following impact:
- Loss of employment of over 1100 people employed by the Company
 - Loss of livelihood of around 10,000 families indirectly associated with the company through its transporters, security agencies, dealers, vendors, etc
 - Subversion of the eco system around an operational company - Loss of livelihood that has developed around the plants through various shops, job works etc., providing a deadly blow to the rural populace of the villages in which the plants operate
 - Loss of future employment options
 - Loss of value of around 2 lakh public shareholders
 - Secured Lenders hold 33% stake in the company. Liquidation will lead to loss of value of the shares held by the secured lenders
 - Loss of creative value potential of the assets
 - Loss of economic value of productive plant and machinery
 - The plants are operational and are currently generating profit – Once the plants ceases to be going concern, their value would diminish greatly
 - Negligible value to be received when plants get sold as scrap brick by brick – financial loss to lenders and investors
 - India would lose self reliance on a critical raw material and would depend on countries like China to dictate supply and price. Company is one of the largest manufacturers of met coke in India. Liquidation of the company would mean that India's met coke production would suffer a hit and the secondary steel plants, chemicals and zinc plants who do not have their own coke unit but buys from open market would now be dependent primarily on imports for the critical raw material requirement. This would also result in loss of foreign exchange
 - Loss to exchequer in terms of GST, Customs Duty, Income tax, etc

- Liquidation of the Company will be against the spirit of Make in India

34. Whereas the present Scheme, upon its approval and implementation will have the following benefits for all the stakeholders:

a) Secured Creditors :

- NPV of aggregate bank repayments under the Scheme would be greater than the expected recovery under Liquidation
- Lenders holding more than 33% shareholding in equity capital to benefit in case of revival which would otherwise be nil in case of liquidation
- Certainty and timeline of repayment is defined in the Scheme which is totally uncertain in case of liquidation
- Substantial financial loss to lenders can be avoided as negligible value can be recovered by them when assets are sold as scrap brick by brick under the liquidation process
- No additional funding from existing lenders
- No moratorium

b) Unsecured Creditors :

- The Unsecured Creditors will be able to recover a portion of their dues in terms of the Scheme as compared to the NIL recovery in the event of Liquidation.
- The Unsecured Creditors will be benefited by the equity upside which is expected to increase as the Company revives, generating good return for the unsecured creditors which in the case of liquidation will be zero.
- Resolution of ongoing litigations and awards/orders and claims in terms of the Scheme
- Continued contribution to the government & payment of statutory dues in terms of the Scheme
- Continuity of employment & payments to workmen and employees in normal course of the business.

c) FCCB holders :

- The FCCB holders will be able to recover a portion of their dues in terms of the Scheme as compared to the NIL recovery in the event of Liquidation.
- The FCCB holders will be benefited by the equity upside which is expected to increase as the Company revives, generating good return for the them which in the case of liquidation will be zero.
- If the investment of the FCCB holders, who are mainly foreign investors, is recouped, then their faith and confidence in the Indian market as a preferred investment horizon, will be kept alive.

d) Shareholders :

- Equity shares continues to be listed and traded and hold market value which otherwise would be lost in case of liquidation.
- More than 2 lac retail shareholders to benefit from revival of business and appreciation of the Company valuation viz-a-viz equity share valuation as against

zero value in the case of liquidation.

- Lenders holding more than 33% shares of the Company to benefit in case of revival post implementation of the Scheme as against zero value in the case of liquidation.

e) Company's Operations :

- Revival of operations on backing of industry upturn and resolution of the Company specific issues
- Company to continue as going concern. This will help keep ~ 1100 direct employment
- Coke is a war critical commodity. Revival of the operations of the Company will mean India would not lose self reliance on a critical raw material and would not depend on countries like China to dictate supply and price.
- Revival of the Company will increase the economic value of productive plant and machinery and at the same time will generate future employment,
- The livelihood of around 10,000 families indirectly associated with the company through its transporters, security agencies, dealers, vendors, etc will be safeguarded,
- The creative value potential of the assets will not be lost,
- The economic value of productive plant and machinery will be safeguarded
- No loss to exchequer in terms of GST, Customs Duty, Income tax, etc
